

# ENTERPRISE

State of the art power efficiency devices with real time current monitoring adjusting capacitance for optimal saving. These dynamic devices are the latest in technology setting a new level for energy efficiency for commercial and light industrial.

Proper sizing for Power Efficiency devices is critical for saving on power consumption. Unlike conventional devices, the XZERES Power Efficiency-Auto Range monitors voltage, current and power factor in real time adjusting the units ability to save on electric consumption from inductive loads.

## AUTO RANGE UNITS AVAILABLE

### XZERES Power Efficiency-Auto Range XZE 10000

KVAR 100 Hertz 45/65 Stages (8) 5-100KVAr

### XZERES Power Efficiency-Auto Range XZE 10150

KVAR 150 Hertz 45/65 Stages (12) 5-150KVAr

### XZERES Power Efficiency-Auto Range XZE 10200

KVAR 200 Hertz 45/65 Stages (12) 10-200KVAr

### XZERES Power Efficiency-Auto Range XZE 10250

KVAR 250 Hertz 45/65 Stages (12) 10-250KVAr

Voltage 380/400/415

Guaranteed

Surge Protection

Made in USA

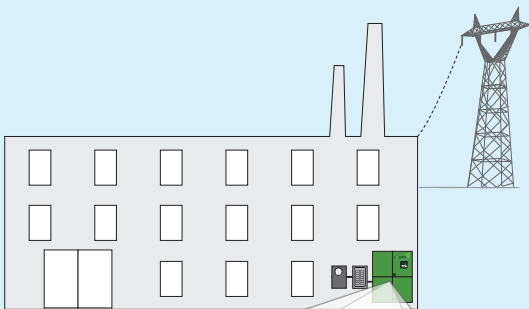

Increased Appliance Life

5 yr Limited Warranty

## PERFECT FOR 3 PHASE LIGHT INDUSTRIAL APPLICATIONS

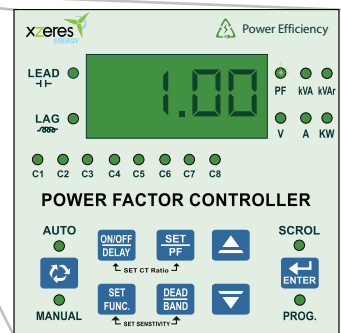

Connects directly to your breaker box  
Used for businesses with 3 phase loads  
where additional capacity is needed

Wilsonville, OR 97070

## State of the Art Maximized Energy Use

## POWER EFFICIENCY-AUTO RANGE ENTERPRISE

XZERES Auto Range Enterprise units are ideally suited for large applications such as wood products industry, small industrial applications, manufacturing facilities and high-tech parks. The units can be applied in multiples to handle several distribution panels. Includes control head micro-processor for real time power factor optimization.

## BENEFITS

- ⚡ Microprocessor based intelligent auto switching control
- ⚡ Real time adjustments to smooth peak loads
- ⚡ Increased device life with capacitor auto switch-off
- ⚡ Clean energy intelligence
- ⚡ Display of Power Factor, Power (KW), Volt & Current
- ⚡ On site programmable all parameters with plug-n-play user friendly settings
- ⚡ A modular system for easy installation, operation & maintenance
- ⚡ Indication for on status of capacitor
